Summary

I'm a full-stack developer based in Kosovo with a passion for web & software development. On the side, I have huge interests in game development, cybersecurity, networking & UI/UX design.

Experience

FREELANCE WEB DEVELOPER

Remote

Worked on and off as a freelance web developer, coding and maintaining small-scale/medium-scale websites for gaming communities, artists, and various clients.

- Developed and deployed responsive websites for various clients, ensuring optimal user experience and functionality across multiple devices.
- Collaborated with clients to understand their unique requirements and deliver tailored solutions that exceeded their expectations.
- Conducted regular maintenance and updates for websites to ensure seamless performance and security.
- Provided ongoing technical support to clients, addressing any issues or inquiries promptly and effectively.

Education

Universum College

2021 - PAUSED
Bachelor of Computer Science
